

# Tell Me About Your Art!

## Dear Kindergarten Families:

Today we compared the lines in art and writing.  
We made

## STRAIGHT AND CURVED LINES IN LETTERS.

**Looking:** We found **straight and curved lines** in the letters of the alphabet and in the first letter of our name. We also found straight and curved lines and letters in art.

**Talking:** We named the types of lines in letters.

**Making:** We placed the first letter of our name in the center of our paper. We chose straight lines or curved lines to make a **border** around our art. Then we filled the page with straight and curved lines.

## Art at Home

### Together:

You could look at letters in the alphabet and talk about the straight and curved lines that make up different letters. You could use letters to make art.

### Questions to ask:

- What type of lines do you see in this letter? (Point to a letter.)
- What type of lines do you see in the lower case letters in your name?
- Where will *you* put letters in your art?
- Where do you think *I* should put letters in my art?

**Straight and curved lines are used in both writing and drawing.**
